

Size guide — round legs

SUPERIOR GLIDE

superiorglide.com

Works for glides and slides, nail-on or self-adhesive. Hold your leg against the circle.

Before you measure — check your print scale

Print this page at 100% ("Actual Size"). Do NOT select "Fit to page" or "Shrink to fit."

Then check the ruler below with a real ruler: the line must measure exactly 100 mm / 4 inches.

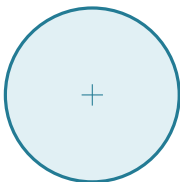

If this line isn't 100 mm, fix your print settings and reprint.

How to use this guide

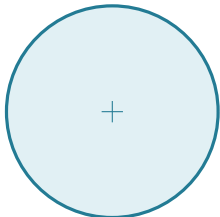

Covers furniture glides and slides — nail-on or self-adhesive, smooth or anti-slip. All share these sizes.

1. Turn your furniture over so the leg base faces up.
2. Hold the leg base against the shapes below and find the one your leg fits inside.
3. Choose a size that sits flush with the leg base or slightly smaller — never larger.
4. Order that size. The fit range beside each shape confirms the leg widths it covers.

Surface: smooth glide (slides easily) or anti-slip (grips in place)
